ACCIDENT TO COL. NORRIS.

Col. Sam Norris, who returned from Kahuku Ranch by the steamer W. G. Hall, Tuesday, met with an accident shortly after his latest return to the ranch, which crippled him for a time. While riding through tall ferus and brush, the Colonel and his horse, or rather the borse with the Colonel, went down into a lava pit 50 or more feet deep. The horse received the force of the fall, which the Colonel thinks saved his life. bruises and had one of his legs for help. The man having missed his employer went back to find him, and striking the Colonel's trail followed it to the pit. A rope was lowered and the rescue effected.

Acceptance of the Charter ... Eliction of Roard of Directors.

Mr. George E. Bourdman presided at a meeting of shareholders of the Pioneer Building and Loan at the Association, held in McInciny Hall Two bright and polite young men at one o'clock this afternoon. Mr. are wanted at the Musual Telephone T. F. Landing read the minutes of last meeting. Mr. C. L. Carter, attorney for the company, read the Saturday. June 21st. charter granted by L. A. Thurston, Minister of the Interior, with the approval of the other members of the late Cabinet. It was moved by Mr. Geo. W. Smith, seconded by Mr. J. H. Fisher, and carried, that

the charter as read be accepted. Mr. Carter, on a call for report from the committee on by-laws, said that Mr. R. I. Lillie, now absent from the country, was chairman of that committee, which had prepared a set of by-laws. It would be necessury to make some alterations in them in secondance with the charter, and he therefore moved that the committee's report be accepted and referred to another committee who should report at next meeting. Mr. Geo. W. Smith seconded the motion, which carried, and the following committee was appointed Rose, T. F. Lansing, A. Cockburn,

and F. S. Dodge. The following board of directors was unanimously elected: Messrs. T. F. Lansing, G. E. Boardman, G. W. Smith, S. B. Rose, W. A. Bowen, J. H. Fisher, J. M. Dowsett, A. W. Richardson, and Henry Smith.

Mr. Carter made a few remarks. He said the success of this organization depended upon the rapidity with which it could make loans. stores in the Brewer Block, Hotel There were 1200 shares of stock, which meant that that amount of money would be paid in every month for investment. Every member should do all he could to secure the placing of loans, or in other words to get borrowing members. Thore must be a nice balance between loaning mumbers and borrowing members. They had not quite enough borrowing members.

The meeting adjourned till this day week at the same bour and place to hear the report of the committee on by-laws.

THE REW LUSTOM HOUSE.

Deputy Collector G. E. Boardman and staff were found this morning settled down to business in the handsome new Custom House. The carpenters are still at work on the finishing touches to some of the offices. A general description of the bui'ding was given in this paper a few months ago. Mr. Boardman is conveniently stationed to the left of the front entrance. He has a fine large Wilshire fire and burglar proof safe at his back. When the safe doors are closed they show an oil painting of Honolulu harbor on the outside, and when open one displays a picture of Diamond Head and the other a beautiful Ewa landscape. The furniture of the offices is substantial, handsome, and well designed for its purposes. The counter shutting off the desk spaces is elegant, consisting of white cedar and redwood panels and mouldings, with koa pillars and black walnut top. Collector-General Cleghorn's private office in rear of the public office is very cosy, having upholstered seatings and black wainut table. The Storekeeper's office is still unfinished but it is going to be very comfortable. It will have facilities for testing liquors. All the offices are fitted with lavatories. The upstairs space is yet uncompleted, so that the statistical work is in the meantime accommodated in the lower offices. There is privacy for the examination of goods, different from the old house, the packages being sent aloft by an elevator at the rear. There is a domb waiter provided, giving easy communication for books, documents, etc., between the main office below and the statistical office above. A broad granite pavement is laid in front of the building. In style, appointments, and convenience the new Custom House must prove satisfactory to the mercantile community.
